WELCOME TO STENCIL®

FOR PEOPLE WHO WON'T COMPROMISE ON QUALITY

With a range of classic, smart and elegant mens and ladies wear, Stencil® creates clothes suitable for every season. Since 1996, Stencil® has developed new materials and styles exclusively for the Australian market, and remains dedicated to creating high-quality garments for Australian Corporate, Promotional, Uniform and Sportswear customers.

What sets Stencil® apart from their competitors is a focus on the development of innovative new fabrics. Stencil® fiercely controls the quality of their products by controlling every step of the manufacturing process – from textile research and manufacturing through to design and production of the finished garments.

MEASURING TIPS FOR STENCIL® GARMENTS

IMPORTANT: half-chest measurements throughout this catalogue reflect finished garment dimensions, not 'to fit' sizing. Please take this into consideration when ordering.

CHEST

Measure your chest from right under your armpits. Make sure that the highest point of your chest and your shoulder blades are included in the measurement.

SLEEVES & BACK LENGTH

With your arm hanging slightly bent & relaxed, measure from the point of your shoulder down to your wrist. For the length of the garment, measure from neck seam to hem.

NECK

Measure the base of your neck, or take a measurement from a collared shirt that fits well. Pressing the collar flat, take your measurement from the centre of the button to the end of the button hole.

GARMENT STYLES & SIZING

Different garments are designed to offer different fits. Some have a loose profile, while others are trimmed in around the waist and have structured shoulders.

Garment sizing varies between brands and styles.

The best way to ensure a good fit is to go by your physical measurements - not your current shirt size. To get the perfect size, lay your favourite shirt flat on a table and measure the chest. By selecting a size that is close to your favorite shirt's measurements, you will ensure a good fit. All measurements are within a tolerance of 1 - 1.5 cm.

WASHING

Remember that Cotton garments can shrink as much as five percent! This is especially important for sleeve lengths and neck fittings. For the best results, always follow the care instructions sewn inside your garment.

FIT STYLES FOR STENCIL GARMENTS

POLO AND SHIRTING

In addition to half-chest measurements, our Polo and Woven shirts now also list a 'fit' style to help you choose elements that better suit your organisation's uniform requirements. There are four main styles of fit, as shown below.

Easy Fit

A slightly relaxed fit with generous measurements and ample room to move.

Modern Fit

A contemporary fit designed to flatter the wearer, with slight tapering through the waist.

TOP AND SHIRTING

Semi-Fitted

Gently shaped through the torso. Follows the contours of the body for ease of movement. Go one size up for an easier fit.

Tailored Fit

With carefully placed darts and seams, our tailored fit garments will accentuate your figure to create an elegant silhouette.

STENCIL[®] INDENT ORDERING

Indent is a term used for Custom Factory Orders, developed and manufactured to your company's requirements in our overseas facilities.

Because your order is being custom-made, indent ordering gives you access to decoration features and techniques that aren't available with the usual stock items. We can even create custom fabrics, special colours and garment designs on request – you're limited by your imagination, not our catalogue.

If you need a logo or other detail on your new garments, Stencil can help with that as well. We provide printing, embroidery and sublimation services undertaken by the original supplier during manufacture – giving you more options for placement, size and colour than with pre-assembled clothing.

With a near-limitless combination of fabric, design and decoration options, indent is ideal for companies who are willing to plan ahead to get the right result. Speak to one of our sales representatives to learn how indent ordering can fulfil your company's specific needs.

The minimum order quantity for indent orders varies from product to product, but can be as low as 400 units of the same colour (e.g. 400 mens, 400 womens, or 200mens + 200 womens) from any one range in this catalogue. The lead time for an indent order can be as little as four weeks by air freight, or approximately 10 weeks by sea.

Please contact your Representative for more information.

COFFEE CHARCOAL

Uniquely eco-friendly and anti-bacterial, the Charcoal Range has a natural deodorizing function, and offers natural moisture wicking and breathability. Kind to sensitive skin, Coffee Charcoal is highly UPF resistant and easy to care for, requiring no ironing.

ECO-THREAD® COLLECTION

Produced using an eco-friendly manufacturing process, the Eco-Thread® Collection blends plant cellulose with classic natural fabrics. Super soft and kind to sensitive skin.

DRYMAX® RANGE

The very latest in active comfort technology, DryMax® performs like no fabric before. With high-throughput active wicking to pull heat and sweat away from the skin for rapid evaporation out of the fabric, DryMax® garments are ideal for sports and high-pressure work environments alike.

SILVERTECH® RANGE

A blend of Cool Dry® and nano-scale silver yarn-treated thread, SilverTech® takes feeling fresh to a new level. One of the oldest anti-bacterials known to man, silver fights odour from inside each thread of the fabric. This nano-scale yarn treatment won't wash out, keeping you fresher for the life of the garment.

ICE-COOL RANGE

The next generation of Cool Dry®, Ice-Cool takes comfort to a new level. Specifically designed to draw heat away from the wearer, Ice-Cool's unmatched moisture wicking and anti-bacterial qualities mean your polo will stay fresher longer, no matter what you're doing.

LITE-TEX® RANGE

Stencil Lite-Text® products are made with a lightweight 3-layer breathable bonded fabric and lined with a microfibre fleece. Offering a waterproof rating of 10,000mm Lite-Text® offers superior protection in all kinds of weather, keeping you warm, dry and comfortable year round.

PMS CHART POLO RANGE

DISCLAIMER: The PMS colours below are a **guide only** as fabric dye lots have a minimum % variation from batch to batch and pms colours cannot be matched exactly with fabric. Colours will also vary depending on device or screen they are being viewed so we **cannot guarantee a 100% match**. We strongly suggest purchasing a sample garment for accurate colour assurance.

There is also some duplication of colour names so please check the style code below each one to ensure you are matching the correct colour to garment style.

| UPF Rating | Protection Category |
| 15 - 25 | Mininum |
| 30 - 45 | Good |
| 50, 50+ | Excellent |

Ethical Statement

At Stencil, we aim to minimise both the consumption of raw materials and the quantity of clothing consigned to landfill by producing hard-wearing quality garments designed with consideration and concern for the environment.

While we are expanding our range of garments with fabrics specifically developed for their eco-friendly qualities and manufacturing characteristics, we continue to preference plantderived synthetics and natural fibres across all our collections, and will continue to increase the proportion of organic materials used in our supply line.

We recognise this is a starting point, and continue to head towards greater levels of environmental responsibility with each passing year.
